The public, in default of actual knowledge, draws its conclusions from the evidence deduced by the senses. They see things and hearings and hearings all these things they wonder greatly.

For instance, when le to I was quoted against Igniter in his race yesterday they saw a heavy plunge made on the horse and watched the price tumble to 4 to 1. Looking back over the records they found that Com Paul, also a starter in the race, had beaten Igniter very easily in a mile race a few days ago at the same difference in weight. How then, argued the public, could finite be expected to beat Oom Paul were if the race was a furlong further than the previous one?

Another Day of Surprises.

The racing at Westchester yesterday was delightful to those who were able to anticipate sudden improvement in form in ligniter and Belle of Lexington, Just how it suited the public, which relies on form, is a question the writer cannot answer. Reversals of form are so common nowadays that the subject is really becoming a bit monotonous.

The most remarkable thing about form reversals is the fact that they are almost invariably anticipated in the betting ring. And the queer part of it all is that the layers, with all their all is that the layers, with all their secouts and sources of information, do not seem able to anticipate the form reversals as well as certain of the players.

MORRIS PARK ENTRIES.

The liniment bottle and flannel strip are familiar objects in nearly every household. They are the weapons that have been used for generations to fight old Rheumtism, and are about as effective in the battle with this giant disease as the blunderbuss of our forefathers would be in modern warfare.

Rheumatism is caused by an acid, sour condition of the blood. It is filled with acrid, irritating matter that settles in the joints, muscles and nerves, and liniments and oils nor nothing else applied externally can dislodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood. Rubbing with liniments sometimes relieve temporarily the aches and pains, but these are only symptoms which are liable to return with every change of the weather; the real disease lies deeper, the blood and system are infected. Rheumatism cannot be radically and permanently cured until the blood has been purified, and
